Thank you for writing me regarding Payam Eshraghian. I do not know to much about him since I was not conducting the workshop he participated on November 2007 in Puerto Maldonado. My friend Antonio Fernandini was conducting that workshop and he reported that in his understanding Payam was not prepared for drinking the medicine and taking full responsibility of his decisions. He had a hard time confronting his experience.

Before coming to Peru he (Payam) wrote to me describing his own condition as:
"Anxiety, depression, heavy hypochondriasis and obsessive compulsive disorder, compulsion / addiction."
I think it is extremely unhealthy to label oneself with that strong words and ideas.

If I can help in any way please tell me.

Thank you for recommending our work to your people, I hope to meet you some day in the future.
Blessings,

Diego Palma
